

Dr. Dinesh is board certified Family Medicine Physician who specializes in both primary care and Hospital medicine. He is a St. Petersburg native who graduated from St. Petersburg High School. Dr. Dinesh was a Child Life volunteer at All children's hospital during his high school years where his passion for medicine cultivated. 11 years later after completing his medical school training he returned back to his hometown to serve the community that played an elemental role in his career. He took over as President and Medical Director of Affiliated Health Clinics in 2021.

Dr. Dinesh attended Nova Southeastern University for undergrad and continued on to medical school at Ross University where he graduated with High Honors in 2018. He completed his Family Medicine training at Indiana University in Indianapolis where he also served as Chief Resident. During his Residency training at IU he was essential in implementing a Physician Health and Wellness curriculum as well as a peer mentorship program that would be adopted for future trainees within the Residency program. He takes that same enthusiasm for health and wellness and strives to integrate it into his everyday patient care.

Dr. Dinesh is currently seeing patients for primary care, weight loss and IV therapy in our clinic. He is also an Attending Physician at BayCare's St. Anthony's Hospital and Bayfront Medical Center where he provides acute care to our patients who are hospitalized. Dr. Dinesh also provides post acute care at several of our local Skilled Nursing Facilities, ALF's, and ILF's.
